

Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

Tumble Dryers
Supplier's Name or Trade Mark
Model
Rated capacity in kg of cotton laundry for the standard cotton programme at full load
Air vented, condenser or gas fired
Energy efficiency class
Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"
Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"
Automatic tumble dryer or Non automatic tumble dryer
EU Ecolabel (If applicable)
Energy consumption of the standard cotton programme at full and partial load
Power consumption of the off-mode (P _o) and on the left-on mode (P _l) for the standard cotton programme at full load
The duration of the left-on mode if the appliance is equipped with a power management system
Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton

The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute

If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most efficient)"

If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"

Noise Level (dB(A)) for the standard cotton programme at full load

Built-In

Answer

Bosch

WTA79200GB

7 kg

Air Vented

C

Energy consumption 504.0 kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used

N/A

Automatic tumble dryer

N/A

4.1 kWh (full)
2.4 kWh (partial)

Power consumption in off-mode 0.1 W and in left-on mode 0.5 W

0 min

The programme Cottons cupboard dry used at full and partial load is the standard drying programme to which the information in the label and the fiche relates, this programme is suitable for drying normal wet cotton laundry and is the most efficient programme in terms of energy consumption for cotton

Weighted programme time of the standard
cotton programme at full and partial load:
101 min
